Electronic/Portal Submission

**Subject: EPA Reg. No. 464-705 - Cancellation Request**  
**Product Specific DCI Response - ID# PDCI-043901-30503**

The Dow Chemical Company (Dow) hereby responds to the Product Specific Data Call In (DCI) Notice for EPA Reg. No. 464-705. Specifically, Dow is requesting that this EPA registration number be cancelled.

While the 90 Day Response indicated that Dow would be re-registering this product, subsequent reviews have resulted in the cancellation request. The same label uses are present on other glutaraldehyde products that we have registered.

Please contact me if any questions.

Sincerely,

Rhonda Vance-Moeser
